START:
Maori want ownership of water infrastructure

Maori go to govt. to get funding to hire top European lawyers and consultants to draft documents to make their plans a reality.

The government obliges. They tip 10's of millions of \$ into Maori caucus war chest

Credit:
www.stopcogovernance.kiwi

European lawyers and consultants are paid huge sums to come up with a plan

Govt says it will pay for new water infrastructure for cash strapped councils

But there are strings attached.

Govt. will give councils money for immediate water infrastructure needs BUT sign over ownership to Maori

TRIBAL RULE
NZ becomes Zimbabwe of South Pacific

The plan is unveiled.

Govt starts bribing councils

Town A's immediate water infrastructure upgrades will cost \$100m.

Example. Town A's infrastructure is valued at \$50b

There is massive public opposition

Govt. realises councils have big water infrastructure plans and bills to pay

Govt. offer to pay Town A \$100m. but they have to sign over their \$50b water asset to Maori

Elite Maori become fat cats, living off the proceeds of 3 waters fraud and corruption

Back to the lawyers and consultants and spin doctors. Spin doctors look for ways to 'sell' 3 waters to the public and councils.

Back to lawyers and consultants. More tax payer money. More spin

Cash strapped council agrees

We, non-Maori, the tax payer, pay Maori on going cash flow to take over our country

Back to the public with new plan

Councils / public / farmers say no

Maori get ownership of \$50b asset for \$100m.

Massive public opposition

From then on, Maori clip the ticket on all water services for town A.

Maori then have eternal cash flow to pay for their coup to take over New Zealand
