

# CO-GOVERNANCE

A large iceberg is shown floating in the ocean. The top part of the iceberg is above the waterline, while the vast majority of its mass is submerged below the surface. The water is a deep blue, and the sky is a lighter blue with some clouds. The iceberg's surface is jagged and textured, showing various cracks and ridges. The waterline is clearly visible, separating the small tip from the much larger, hidden base.

**It was what was below the  
waterline which sank the Titanic.**

It is what is below the waterline of  
co-governance which will  
**sink New Zealand.**
