This is sneaking into the corporate world of NZ, it's not just gov that is going to have this crap pushed through. Maori inadvertently are going to destroy NZ. LGBT is next

NZ gov is segregating and indoctrination.

**"State coerced brainwashing and mind control."**

Absolutely. Sean has nailed it. What a nuthouse the New Zealand Government has become.

It is the government who are destroying Maori and NZ. Maori are, by and large, unwitting pawns in the cultural Marxist push.

The Australian housing market is tanking, might be a good time to sell up in NZ and make the move.

Jus another reason not to trust real estate agents. How about more training on how to better serve sellers? Because Treaty of Waitangi knowledge sure isn't going to.

This government with their patronizing agenda . Treating Maori as special needs and to useless to help themselves are a disaster not just for Maori but for New Zealand as a whole. For aspirational and hard working Maori in particular it is undermining and disillusioning. The Government and council special positions and quota's means it devalues the person self worth who are in those positions. When Diversity trumps meritocracy our society is poorer and weaker.

**Who decided this would be mandatory ?**

The mandatory courses for 2023 are Code of Conduct and "Te Tiriti o Waitangi" (Treaty of Waitangi). The Treaty of Waitangi course is a new course that will be part of a diversity and inclusive series of courses over the coming years. These diversity courses will only be supplied by a new provider.

The optics are not good for Labour here....

Optics not great for the Real Estate Institute either. Who wants a indoctrinated clone working on their behalf. Private sale is the way to go

As with lawyers Conveyancing fee's when purchasing and selling a property. One day you might have to pay a \$5k koha to the local iwi for a Maori blessing before you can move into your new house.

Lenin stated that the way to revolution without armed confrontation is destruction within through infiltration of the governing classes. Would seem the Lenin playbook is well entrenched in New Zealand.

Yes. True. Another socialist, marxist like Ardern and Hipkins.

The timing of the image circulating stems from the 2022 World Economic Forum summit currently taking place in Davos, Switzerland.
