

STOP CO-GOVERNANCE VISION 2023 - 2026

We intend to push on to 2026 now, and beyond, so playing a long game.

Our team is growing and more and more talented and amazing people are joining our leadership team.

We have a staff meeting every day at 7am, 7 days a week, on Google Meet which is a video call. It's really for those in leadership but we regularly have guests.

Our plans for the next year and beyond?

We are flat out developing an on line video teaching series with small group discussion manuals. The idea is to have people all over the country meeting in homes in small groups studying the Treaty and a host of other co-governance related topics, like the \$55m PIJF. People watch a three minute video clip on line, and have a study manual on their lap. At the end of the video clip, the group leader leads the participants into guided discussion. There will be tests and quiz's and it will be fun as well as educational.

The purpose of the groups is to:

1. Counter the governments narrative about the Treaty. The population of New Zealand has literally been brainwashed for the last 48 years and it's time to detox, exposing all the lies and deception.
2. We need Kiwis to be really savvy with respect to their knowledge of the Treaty.
3. The reason the activists have gotten so far is that Kiwis have had nothing in their hands with which to fact check what has been pouring out from the Tribunal/ government / activists over those 48 years.
4. If one doesn't know the truth, one can't detect the lie.
5. Inform the public about key issues / aspects of co-governance
6. Keep the public abreast of latest developments.
7. To raise up an army of 100's of thousands who will be willing and equipped to go into battle to stop co-governance completely at the next election in 2026.

We are keeping faithful to our goal to EXPUNGE co-governance from all New Zealand legislation and won't stop until this has been achieved.

Education is the key to change.

We also want people to make friends as they study together.

We are hoping this small group study groups will spread organically and multiply. The series is called...

Treaty Truth.

Exposing 48 years of Treaty Lies and Deceit.

The "Awaken Our Nation" Video Teaching Series

The goal is to have 1000 groups meeting regularly in homes by the end of 2024.

It was obvious watching the minor party leader's debate that none of the politicians had any idea about the Treaty. Tragic. This is why we are in this co-governance mess today.

They have passed legislation not knowing what they are doing.

We have work to do, so let's get going.
